Dear Dr. Lewis:

This office received an asbestos management plan on August 2, 2019, for the aforementioned property. Subsequent information was received on May 11, 2021.

We have reviewed the asbestos management plan and find that it is complete and satisfies the requirements established by LAC 33:III.2735 of the Louisiana Air Quality regulations for a school building exclusion. A copy of this letter must be included in the management plan located onsite.

Pursuant to LAC 33:III.2723, should any conditions at the subject property change, additional action may be required (ex. demolition, renovations, additions including temporary buildings, changes in designated person, etc.).

Please contact Charles Finley at (225) 219-3300 if you have any questions or need additional information.

Sincerely,

A handwritten signature in blue ink, appearing to read "CSNL".
